

Green Velvet Grass Seed

Trophy XRE Turf Type Tall Fescue

Proven performer for lawns and sports fields that operate under a wide range of maintenance levels. Handles traffic and wear and stays beautiful green. Good disease and insect resistance using the most drought tolerant, endophyte enhanced Tall Fescue varieties. Good for both sun and shade.

100% 3-4 Elite Turf Type Tall Fescues

Bare Ground: 8-10 lbs per 1000 sq ft.

Overseed: 4-6 lbs per 1000 sq ft.

Germination Rate: 5-10 days

1st Mowing: 14-21 days

Heat Tolerant “Premium” Bluegrass

Comprised of the best Kentucky Bluegrass varieties on the market. Excellent for high performance lawns, athletic fields, golf course roughs and fairways. Excellent for new seeding or overseeding existing lawns.

100% 4-5 Elite Kentucky Bluegrass varieties

Bare Ground: 2-4 lbs per 1000 sq ft.

Overseed: 1-2 lbs per 1000 sq ft.

Germination Rate: 7-10 days

1st Mowing: 21 days

Green Velvet “Finest” Seed Mixture

Southern Ohio favorite for sunny and lightly shaded areas. Good green color and economically priced. Establishes quickly and is suitable for a diverse range of turf uses and growing conditions. Blends well with older bluegrass lawns.

45% Elite Perennial Rye grass

40% Elite Kentucky Bluegrass

15% Creeping Red Fescue

Bare Ground: 5-6 lbs per 1000 sq ft.

Overseed: 3-4 lbs per 1000 sq ft.

Germination Rate: 5-14 days

1st Mowing: 14-21 days

“Champion” Perennial Rye grass Blend

Champion was developed for rapid establishment, stress and disease resistance combined with rapid recovery. Composed of exceptional Gray Leaf Spot resistant rye grass varieties. Contains high levels of viable endophyte making it resistant to a number of insects such as Billbugs, Sod Webworms, Chinch Bugs, Armyworms and Aphids. Fast germination. For use on golf courses, athletic fields, parks, schools and commercial landscapes.

100% 3-4 Elite Perennial Rye grass varieties

Bare Ground: 6-8 lbs per 1000 sq ft.

Overseed: 4-6 lbs per 1000 sq ft.

Germination Rate: 3-7 days

1st Mowing: 14 days

Shady Supreme Mixture

The best blend for shade tolerance. Contains chewings, creeping red and hard Fescue varieties with the added shade, heat and drought tolerant of Thermal Blue Hybrid Bluegrass. Dark green, fine leaf texture and good insect and disease resistance.

25% Chewings Fescue

25% Creeping Red Fescue

17% Hard Fescue

25% Elite Perennial Rye grass

8% Elite Hybrid Bluegrass

Bare Ground: 8-10 lbs per 1000 sq ft.

Overseed: 5-6 lbs per 1000 sq ft.

Germination Rate: 7-14 days

1st Mowing: 14-21 days

Helpful conversions:

9 sq ft = 1 sq yd

1 acre = 43,560 sq ft = 4840 sq yds

***The sod we carry is Premium Kentucky Bluegrass**

Premium Kentucky bluegrass seed is listed above

*endophyte is a fungus that lives inside another plant. The arrangement is mutually beneficial. The endophyte helps the plant with insect infestation.
